July 1, 2020

Gregg M. Worley, Acting Director
Air and Radiation Division
US EPA - Region 4
61 Forsyth Street, SW
Atlanta, GA 30303

Dear Mr. Worley:

In accordance with 40 CFR 58.10, the Alabama Department of Environmental Management (ADEM) has prepared the Annual Network Plan for the State of Alabama. The plan was placed on the ADEM website on May 28, 2020, to start a 30-day public review period. The review period concluded at the close of business on June 26, 2020.

ADEM received one set of comments during the 30-day public review period. ADEM reviewed the comments and found them to be substantially identical to comments provided by the same entity in 2018. ADEM previously addressed and responded to these comments when they were originally submitted. There is no need for a formal response to the recent comments. No changes to the plan were implemented.

Due to Covid-19 travel restrictions, ADEM was unable to complete the air monitoring site evaluations in time to submit with the annual plan. Once completed later this year, ADEM will submit the results to EPA.

The following items will be submitted electronically to Todd Rinck and Darren Palmer:

2020 Annual Network Plan
Comment Letter
Equipment List

If I can provide additional information please contact me at (334) 260-2783.

Sincerely,

Gina L. Curvin, Chief
Air and Facility Section
Field Operations Division
